IS

AWESOME

```lua
function COFFEE.BREAK()
    for k, ply in pairs(GetAll())do
        local drink = ply:CB()
    if not ply:Awake()then
        local strength = 1000

    if strength > k then
        local sugar = 2
        local milk = 1
        local extrashots = 2
    if postcoffee = not ply:Awake
        local new = strength*2
    else return end
    end
end
